

UCS

► High Efficiency, Condensing Hot Water Boiler

240 MBH Residential and Light Commercial

- 95% AFUE
- 6.7:1 Turndown Ratio
- Wall Mounted
- Optional Floor Base Available

- 380 MBH Commercial Offering

- 95% Thermal Efficiency
- 10.5:1 Turndown Ratio
- Floor Standing

- 380 MBH Commercial Offering

- Anti-Wind Function - control automatically adjusts the fan speed to prevent loss of flame and lockouts
- Flame Stabilization - control allows the flame to stabilize before modulating, preventing flame drop outs and recycling

- Built by American Craftsmen

There are some things you can always depend on...

UCS 240

The UCS 240 *is perfect for residential or light commercial applications*, featuring:

ENERGY STAR® Most Efficient Status at **95% AFUE**, the UCS 240 allows you to qualify for state, federal, or local utility company rebates.*

6.7:1 Modulation Turndown Ratio saves energy by reducing the amount of gas used. Enjoy comfort, energy savings, and lower utility bills! By automatically modulating the gas input to match the heating level that is needed, the boiler system operates at optimum efficiency, resulting in savings for you!

LABOR SAVER Manifold is included, which means that we've gone ahead and taken care of the primary-secondary piping for you. The manifold includes connection points for the included gauge and pressure relief valve, saving you time and money during the installation.

Optional Floor Base Kit is available when the installation does not allow for a wall-mounted solution. Boiler connections are easily accessible through the removable panels of the optional base.

Shown with optional floor base.

UCS 380

For commercial applications, the UCS 380 features:

A **95% Thermal Efficiency** rating, which allows you to qualify for available rebates.*

An impressive **10.5:1 Modulation Turndown Ratio**, the UCS 380 can meet varying load demands, saving energy and reducing fuel costs.

Optional Plug-and-Play, CSD-1 Kits are available where local code requires. Includes Manual Reset Low Water Cut Off (LWCO) and High Limit.

Compact, Floor Standing Design features built-in leveling legs and a removable, one-piece front jacket and lower side panels for easy access for installation and serviceability.

The **LABOR SAVER Manifold** for the UCS 380 is included. The pre-manufactured primary secondary piping saves you time and money on the jobsite.

OPTIONAL INDIRECT TANK CONNECTION

Utica Boilers H2O Indirect Hot Water Heaters are available in 30 to 115 gallon capacities and feature 316L stainless steel construction and accessible connections for an easy installation.

- Commercial Sizes
 - HOC (High Output Commercial) - 80 & 115 Gallon
 - XHOC (Extra High Output Commercial) - 85 & 115 Gallon
- Larger Heat Exchanger Coils
- 1-1/2" Hot & Cold Water Tappings
- Dual Anode Rods
