

MGB Series II/MGC Series

There Are Some Things You Can Always Depend On...

MGB II / MGC

Up to 83.9% AFUE Gas Fired Hot Water Boiler

- Available in 9 sizes from 50 MBH to 299 MBH.
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples. The Sections and Push Nipples expand at the same rate when heated. By using similar materials instead of less expensive gaskets the boiler maintains a water tight seal over time.
- Honeywell 2012 Compliant High Limit/Electronic Ignition Control.
 - With durable protective cover and viewing window.
 - Digital temperature display and diagnostics.
 - Plug in connection for the vent damper.
 - Plug in connection for the system pump.

Control monitors water temperature and delays the burner starting until and residual heat has been transferred. This maximizes efficiency by turning on the burner only when needed.

- Atmospheric Chimney Vent Boiler with Integral Draft Hood and Automatic Vent Damper. The Integral Draft Hood reduces the overall height and footprint of the boiler making it ideal for low clearance/space limited installations.
- Textured paint Jacket.
- Limited Lifetime Warranty (Residential Applications)
- Made in the USA

	*D=Natural Gas, DP=LP Gas The MGC has distinct input rates for Natural and LP gas versions. 8D/9D rates shown are for Natural gas. 8DP/9DP rates are for LP gas. (1) Input rating for sea level to 2,000 ft. (610m) above sea level. United States, over 2000 ft (610m) above sea level. Reduce input rate 4% for every 1000 ft (304m) above sea level. (2) Net AHRI Water Ratings shown based on piping and pickup allowance of 1.15. Consult manufacturer before selecting boiler for installations having unusual piping and pickup requirements, such as intermittent system operation, extensive piping systems, etc. For forced hot water systems where boiler and all piping within area to be heated, boiler may be selected on basis of its heating capacity. (3) Recommended tank sizes for non-ferrous baseboard or radiant panel systems. Increase size for cast iron baseboard and radiation.
